Teacher's remarks:

During these three months ○○ has been doing a great job. We are very happy about how much and how fast ○○'s English is improving. He loves English class; he is always eager to learn. Every class, when the teacher asks "How are you today?" He answers with a big happy smile "I'm excited!". ○○ is very good at giving answers based on reading or answering restricted questions based on the grammar being studied, but when the question is a little more open and the answer has a little more freedom, he has some difficulty answering.
